

Could Your Patient Benefit from **Home Healthcare Services?**

For patients with chronic conditions or those who have experienced a recent hospital or skilled nursing stay, they may be eligible to qualify for home healthcare services. This benefit has proven to improve patient outcomes, reduce hospital re-admissions and improve care coordination across the health care continuum.

Do you have patients who have any of the following?

.....

- + Recent falls or problems with balance
- + Two or more hospitalizations in the past year
- + Difficulty performing activities of daily living
- + New or changed medications
- + A new diagnosis or a chronic condition such as COPD or CHF

If **yes**, your patient may qualify for Home Healthcare.

Please contact us at **844.442.5322**
